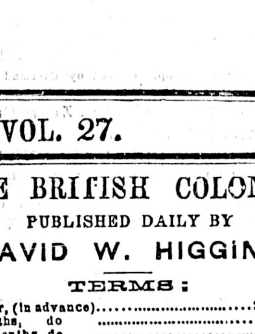
A GREAT MEDICAL DISCOVERY

Dr. WALKER'S CALIFORNIA

VINEGAR BITTERS

Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?



They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion of Inflammation of the Liver, and all the Viscral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

THEY ARE NOT A VILE

FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

### Card of Thanks to Dr Chong.

AFTER BEING TREATED FIVE MONTHS by a white doctor, and spending nearly $300, I was worse than when I first went to him. I had quite despaired of being relieved when I read Dr Chong's card in THE COLONIST. I placed myself under his care and in NINE DAYS I was a well man. I write this card to discharge a debt of gratitude I owe to Dr Chong, whose charge, I may also say, was reasonable. My complaint was neuralgia.

## The Egyptian Precedent.

Our last article opened with a brief description of a ludicrous attempt to establish party Government on the banks of the Nile. Our local contemporary fails to "see the point." That is just as might have been expected. It is an old saying that "There are none so blind as those who will not see." Our contemporary appears to occupy that unfortunate position. He is groping in 'Egyptian darkness' upon the subject of party Government; and hence it was most fitting we should go to the valley of the Nile for an illustration. The illustration we selected possesses just one point of analogy with the local case; and we shall endeavor to present that point in such a light as will make it plain even to our obtuse contemporary. The Egyptian statesmen fell into the error of conceiving an 'Opposition' essential to *starting* a representative parliament; and hence it was that the old sheik Ibrahim was instructed to lead an Opposition, whose especial and sole business it was to oppose Government measures, right or wrong. Nor is it difficult to understand how the Kedive fell into such an error. By no means an industrious student of representative legislation, he dropped into the British House of Commons, and was not an over intelligent witness of the proceedings. He only saw that there was an 'Opposition,' but did not take time to consider that it was the *result*, rather than a part, of representative administration,—that the Opposition was based upon a distinct political creed, differing so much from that of those in power as to justify patriotic men in endeavoring to overthrow the Ministry. Our contemporary appears to have fallen into a similar error. There cannot be said to be two political parties in this Province. Old party lines were all submerged by Confederation. The people have sent twenty-five delegates to represent them in the local parliament. Out of these, five have been, or are being, called upon to act as responsible ministers. These ministers will shortly meet the House and announce the policy of the Government. Members are presumed to support or oppose the Government according as they approve or disapprove of its measures; and it will be time enough to organize a party to be known as 'Her Majesty's Loyal Opposition' when the policy of the Government presents sufficient occasion. To do so earlier would be to offer the Government a factious opposition on mere personal grounds. But our local contemporary is not content to allow opposition to the present Ministry to be the result of a divergence of political opinion. Like the Egyptian Minister, he insists upon the House being divided before ever the Government policy has been evolved; and more arbitrary than his prototype on the banks of the Nile, he is unwilling that any should occupy an independent position. But, unfortunately for him, yet fortunately for the public, his motives are as transparent as his proposition is ridiculous; and it is to be presumed that the member for Victoria District will find very few willing to keep him company on the 'Opposition Benches,' at the opening of the House. Our contemporary entirely misapprehends our position in saying that we deprecate as a public calamity any opposition to the Ministry. We do nothing of the kind. Indeed, to suppose such a thing possible as the Government to be carried on for a single month without opposition would be to betray singular ignorance of men and of history. Every community has its DeCosmos in a more or less modified form. There is to be found in every legislative body at least one man who will oppose anything and everything not emanating from his own brain. Our DeCosmos has lost no time in declaring himself in opposition. Those who know the man must have been quite prepared to find him there. It is his normal position, and we would not disturb it if we could—neither do we believe the Government would. But while claiming the right to oppose the new Government *before* its policy is known, surely he will not question the right of others to withhold the verdict till the evidence has been heard.

## Dominion Mail Summary.

(DATES TO THE 18TH DEC)

Much space is occupied with the 'Ministerial Crisis' in Ontario. The debate lasted a whole week and is said to have been characterized by a bitterness and personality seldom witnessed in the legislative halls of Canada. The first division took place upon Mr Blake's amendment, which related entirely to the disposition of surplus revenue for railway purposes. That amendment was carried by a majority of seven, but, inasmuch as the adoption of the mode of expending that surplus was the act of the Legislature not the Government, the vote of the House was really one of want of confidence in itself, and the Ministry did not, consequently, feel called upon to accept it as a want of confidence, in the constitutional sense and did not, therefore, resign. Mr Mackenzie, however, followed it up with an amendment of a more constitutional character: and it was carried by a majority of one! The resignation of the Ministry had not transpired when the mail closed, and we observe that the Toronto Telegraph doubted whether such a vote, with nine vacant seats in the House would be accepted by the Governor as evidence of the Ministry having ceased to enjoy the confidence of the country. We know, however, the telegraph having announced some time ago, that the Ministry did resign, and that their resignation was accepted.

It is reported that application will be made to the Dominion Parliament next session for an Act authorizing the construction of a wooden railway from Fort Garry to the north-west angle of Lake of the Woods.

The Grand Duke Alexis was enjoying himself driving, skating, dancing, feasting and sight-seeing at Montreal. The Duke appears to make himself very popular whereever he goes.

Our exchanges announce the death of *Major* Taschereau, A. D. C. This melancholy occurrance creates another vacancy in the staff of the Governor-General of the Dominion.

A very influential deputation comprising the Premier of Quebec, the speaker of the Senate, and the President of the Board of Trade, and many other public men, waited upon the Hon. Mr Langevin, Minister of Works, with a view to impress upon him the desirability of establishing schools of navigation in the principal cities of each of the Provinces of the Dominion. Another influential deputation waited upon the same Minister for the purpose of submitting a scheme having in view the husbanding of the waters of the rideau Canal for manufacturing.

The subject of the disposition of timber lands in the North-west Territory continues to engage the attention of the Dominion Cabinet.

The Globe's correspondent of the 11th December, says, there is a curious report that Sir F Hincks has been having interviews whilst here with the Railway Magnates from the other side of the line 45 and that something is on foot which will probably leak out before long. What it is has so far been carefully concealed, but the fact of the interview is undoubted, and the general tenor of the negotiations hinted at.

The Manitoba Liberal of 24th Nov, says: Mr Bowen, the chief superintendent of the eastern section of the Canada Pacific Survey a rived here yesterday from the Northwest angle, and we learn that good progress is being made by the different parties notwithstanding the drawback of the early and deep snow,

## European Mail Summary.

We have English papers to December 2d. The London correspondent of the Dundee Advertiser writes:—Mr Bright, in conversation with a friend, has been giving his opinion of Sir Charles Dilke, whom he is said to have described as a clever but hot headed young man, who wastes his time and his talents in damaging the cause he professes to have at heart. The Times understands that Mr Bright has no present intention of addressing, as has been reported, his constituents. A report with reference to the proceedings in Australia, connected with the Tichborne baronetcy, speaks little for the honesty of the inhabitants of the colony. It is said that the claimant's counsel advertised for the crew of the Bella, seven in number, and that he received no less than 150 replies. The number of notices for applications to Parliament for new railways and tramways lodged up to the latest period for their reception, was 270. The wife of a peddler at Bilston is in custody, charged with poisoning several of her children, 10 out 12 of whom have died, and in the bodies of two traces of antimony have been discovered. At the Dublin municipal elections the Liberals were successful. A Home Rule candidate was beaten by a considerable majority. The appointment of Sir Robert Collier to a seat on the Judicial committee was gazetted on Friday. The appointment continues to meet with adverse criticism in many quarters, it being regarded as an evasion of the Act of Parliament of last Session. The Solicitor-General obtained re-election at Dover on Satuday, having polled 91 more votes than his opponent, Mr Barnett. Mr Mill, M P, at a dinner given in his honor at Newcastle-on-Tyne, spoke sanguinely of the not distant disestablishment of the Church of England, and urged Noncontormists to turn out the Government rather than allow the question to be passed over. A working man, in a fit or passion, at Birmingham, fatally stabbed his wife and then himself. He has since died of his wounds. A man, supposed to be an Englishman, named Harry Benson, has been remanded upon a charge of obtaining £1,000 from the French Relief Fund under the false pretence of being the Marquis de Moracy, the Maire of Chateaudun. Sir C Dilke continues his anti-Monarchical tour. Last night he addressed a meeting at Boulton, which gave rise to a rather serious riot; but, as far as it is known, no lives were lost. A meeting of electors of Chelsea, convened to protest against Sir C Dilke's lectures upon the Monarchy, was broken up by a crowd of Republican sympathizers. Lady Edith Ferguson, wife of the Governor of Victoria, died at Melbourne on the 25th of October.

C FRANCIS BARNARD, M. D.
*SURGEON DENTIST.*
DR. BARNARD HAS HAD OR several months the "Perkins Hyatt" or "Colluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone Rubber," which is rapidly supplanting, for single dentures or partial sets, the best vulcanites of the last 25 years.
We cheerfully add Dr. B's Card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.
Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.
The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.

## The Zealous at San Francisco.

The Admiral and officers of H M S Zealous appear to have had a pleasant time while at San Francisco. They were present at socials, balls and parties without number and everywhere received marked attention. The Zealous sailed for the South on the 1st inst. The San Francisco *Chronicle* furnishes the following account of a reception on board the Zeblous on the 22d December:

At half-past 1 the steam launch left the Zealous and came to Brannan street wharf to remove the guests. But few were there however, for the timid fair ones had been cowed by the dim aspect of the heavens. So a detachment of the officers were sent to reassure them and offer their strong arms as escort. The brave sons of

MARS AND NEPTUNE

Are irresistible to the gentler sex, and in a very brief space of time might the launch have been seen steaming away with a gallant and precious burden of votaries of pleasure. Though the Zealous lies well out in the stream the distance was spanned in a very few minutes by the swift little craft, which soon lay alongside. And now was an interesting scene. The gangway was lined with officers, each having a friend on the launch—some a dozen—and as each beauty was handed up in turn she was escorted by the gallant in buttons who first claimed the honor to the Captain's cabin (the ladies dressing room pro tem.) Owing to the danger of a possible shower

THE TOILETS

were not very extensive, only one lady appearing *en costume* and the preparation and fixing, in the mysterious chamber allotted were necessarily brief. The first quadrille—the Admiral's set—was danced in the ward room, on the third deck, for as yet the upper deck would not allow the light fantastic to be tripped upon it with impunity. Order was given to

'CLEAR THE UPPER DECK,'

And sailors innumerable went to work sopping up the moisture, clearing away the guns and sprinkling French chalk around. In a few minutes the soft, passionate, lingering, persuasive tones of the waltz streamed along the decks of the gallant old ship, inspiring all with pleasure and defying resistance to its wooing. Ah! how the eyes of the fair ones sparkled and beamed and flashed with the softest lustre as they yielded unrestrainedly to the spirit of the hour and were whirled away in the dizzy pleasures of the dance. Verily he who wrote—

'Tell me not of your starry eyes,
Your lips, that seem on roses fed,'

Would have had his cremitical head turned in another direction had he beheld the radient beauty that shone on the Zealous last Thursday. Dance followed dance at close intervals between which the ladies and their escorts would repair to the Admiral's cabin where

AN ELEGANT COLATION

Was spread. At 4 30 a fresh breeze springing up, the guests went to the gun deck below—a more sheltered quarter—and there continued the dance till evening was well advanced, when with many a sigh of regret and parting farewell, they left the ship and dispersed to their respective homes. Nearly all the officers went on shore with them to fulfil engagements with their numerous friends. The reception was pronounced by all to be the most pleasant and enjoyable hop of the season.

Among the gentlemen present was Henry Nathan, Esq, M P.

CENTRAL OLYMPIA.—General McKenny and W H Avery Esq, of Olympia, arrived in town yesterday and are stopping at the Colonial. These gentlemen represent the property holders of the new town known as Central Olympia, which lies on the east side of Budd's Inlet. The Inlet has been selected as the temporary terminus of the N P Railroad. It is, of course, a moot question as yet upon which side of the Inlet the road will run; but the heavy purchases of real estate on the east side by gentlemen interested in the company and in its more favorable topographical advantages lead to the belief that that side will be selected. Messrs McKenny and Avery are responsible gentlemen, and the depreciatory paragraph which appeared in an Olympia paper and was referred to in this journal, appears to have been the offspring of party spirit and not of a desire to deal with the enterprise upon its merits.

FOR PORTLAND. — The propeller California will sail this morning for Nanaimo. On Friday next, at 4 p m, she will connect at Port Townsend with the North Pacific from Victoria and will sail immediately for Portland.

PRIZE DISTRIBUTION.—We are sorry to learn that some persons have been mean enough to insinuate that the prizes were not fairly distributed at the children's entertainment, given by the Mechanic's Institute on Saturday evening. On iequiry we find that the plan adopted in giving out the prizes was as follows: Two books were made out one for boys' and the other for girls' prizes. Each book contained the number of the tickets in consecutive order, and against each number a prize was placed, as each ticket was presented, the book was referred to and the prize placed against the number was given out; the tickets were given out at the door, and as the gentleman who delivered the tickets was in complete ignorance as to what prizes the numbers represented, it is evident that it was completely a matter of chance as to what prizes were given.

Several of the heads of the steamship desertted in consequence. The steamer caught the gale when off Cape Flattery, and as we all know, came safely through.

THE GREAT SNOW STORM AND THE RAILWAY.—Six hundred passengers were detained at Cheyenne by the snow, and the Railway Company were supplying them with provisions gratuitously. Some 500 miles of the track are blocked. Seven or eight locomotives were attached to a snowplow, but failed to effect any good, and 35 locomotives have been rendered unserviceable. At Truckee the snow was four feet deep.

THE CORRECTOR CORRECTED.—A loaal blunderer corrects our item with respect to the ocean mail subsidy, and contends that the contract will not expire till the 15th February. To this we reply that it expired on the 15th of December last, and that the Prince Alfred is continuing her trips until a permanent arrangement with the Dominion shall have been made.

FENIAN TRIALS AT FORT GARRY.—We had begun to think justice in Manitoba too cross-eyed to see treason; but our latest exchanges from that Province contain accounts of the trial of two of the Fenian raiders, one of which was found guilty and sentenced to be hanged on the 24th of February next.

Such manifestations of her people are nothing new to her, for she met with the same sympathy ten years ago, when a similar illness from that under which her son is suffering, removed the best, wisest and kindest husband that ever lived. When the articles first appeared, criticising his action with regard to the mine, he at once communicated with the State Department explaining the facts in the matter, and asking advice as to future action. Mr Fish replied that he was at perfect liberty to invest in a mining company or any other stock; that such investment furnished no just ground for criticism by anybody; but at the same time, the publication of his name by the promoters of the Company as the American Minister and Director of the Company was thought unfortunate, and under the circumstances advised him to withdraw from the Directorship.

CHICAGO, Dec 27—There is excitement in police circles over the discovery of a supposed abortion horror of the Rozenweig-Bowlsby type. All business was suspended and mob violence reigned supreme. It is not known how many negroes were killed, but Edward Wilson, who left Marshall at eleven o'clock, saw the dead bodies of five, two hanging by their necks, and three lying in the road; one also was terribly wounded, having his shoulder shot away. At latest accounts a crowd of armed men was starting out, swearing that they would clean out every negro in the country.

These represent the liabilities of the State, for which the faith or credit of State, however unlawfully procured, has been pledged for payment. The contingent liability incurred by railroad endorsements swells the total to $30,000,000. The committees declare their conviction that this condition of things is chargable to the Ring composed of the leading officers of the present State Government, and they must be held responsible by the Republican party, and every means used to bring them to punishment.

**OREGON RHEUMATIC CURE.**

HISTORY.

This Remedy is composed of the active principle of the Unk Weed—Eng. Thaspium Cordatum Originis, Lat.—Indigenous to Oregon. Grows most abundantly and perfectly in Washington Co

It contains an ACTIVE VOLATILE Principle, extracted by Ether, and a bitter TONIC Principle soluble in Alcohol.

MEDICAL PROPERTIES AND USES.

It is the most sure and speedy cure for
**Rheumatism, Rheumatic Gout and Rheumatic Pains of all kinds**
That was ever introduced in the Materia Medica. The UNK WEED REMEDY, as prepared by us, in consequence of the existing bitter principle, possesses the necessary virtue of being a
**Powerful Tonic.**
Promoting the Appetite and Invigorating the whole Digestive Apparatus, thus building up and strengthening the system, while at the same time the volatile principle being absorbed in the blood, acts specifically on the Rheumatic Poison, removing it from the circulation and system

There are few remedies known to the Medical Profession which will remove the Rheumatic Poison from the blood, but whose action is so powerful in depressing the system of the already enfeebled rheumatic patient, that their use has to be abandoned before specific effects are obtainable, hence the want of success in treating this prevalent and in consequence heretofore incurable disease

Unlike these Medicines, already known, the UNK WEED REMEDY, though producing as powerful and as active effects on the blood and system in removing the Rheumatic Poison, also possesses a strong TONIC and recuperating element which admits of its continued use even by the most delicate and debilitated. Thus we have the combination for the first time of these two necessary elements in one remedy, which accounts for its superior and never failing curative effects in

## Medical.

**ELECTRICITY IS LIFE.**
**PULVERMACHER'S**
PATENT GALVANIC
**CHAIN BANDS, BELT**
AND
**Pocket Batteries.**

THESE REMARKABLE AND HIGHLY improved inventions render electricity perfectly self-applicable, and extremely efficacious in a mild continuous form, no shock or unpleasant sensation being experienced, whereby it becomes a true fountain of health and vigor, speedily soothing agonising pains, re-animating torpid limbs, reviving the sluggish functions of life and imparting renewed energy and vitality to constitutions enfeebled by whatever cause. Medicines and their deleterious consequences are thus entirely dispensed with; The daily increasing number of cures effected by PULVERMACHER'S MEDICO-GALVANIC SYSTEM is so extensive and varied, that it forcibly points to this invention as the embryo of the universal remedy.
N. B—The following testimony from the ELITE of the English medical faculty has been received:
"We, the undersigned, have much pleasure in testifying that Mr J L PULVERMACHER'S recent improvements in Voltaic Batteries and Galvanic Appliances for Medical Purposes, are of great importance to scientific Medicines and that he is entitled to the consideration and support of everyone disposed to further the advancement of real and useful progress.
Dated this 9th day of March, 1866
Sir Charles Locock, Bart., M O, F R C P.
Sir Henry Holland, Bart., M D., F R S.
Sir Wm. Ferguson, Bart, F R S.
Edward H. Sieveking, M D, M R C S.
Sir J. Ranald Martin, F R C S."
☞ PULVERMACHER'S SYSTEM is also approved of by an official report of the Academie de Medicine, Paris; Royal College of Physicians, London; and the Imperial Faculty Vienna, and its curative virtues are confirmed by thousands of private testimonials of cures effected. (See pamphlet, gratis).
These facts appeal to the good sense of every sufferer to avail himself of this scientific and curative progress, to which the inventor has devoted a lifetime of study and labour, as an ardent disciple of that great benefactor of mankind, the late illustrious electrician, MICHAEL FARADAY
PULVERMACHER'S MEDICO-GALVANIC CHAIN are exceedingly effective without the aid of medicine restriction of diet, or the least derangement of the patient's habits and daily occupations. In the following maladies:—

| | | |
|---|---|---|
| Rheumatism, | Tic Doloreux, | Sluggish circulation, |
| Gout, | Indigestion, | Urinary Disorder |

| Lumbago, | Spasms, | Epilepsy, |
| Neuralgia, | Female complaint | Nervous Debility |
| Head and Toothaches | Constipation, | Functional Disorders, &c |

CAUTION A Perpetual Injunction in Chancery, dated 18th August 1869, was granted to J L Pulvermacher against Alfred Barrows, alias C D Hammond, alias Henry James alias C D Barsbey, his assistants, agents and servants restraining the said person or persons under penalty of £5000 from deceitfully advertising Belts, &c., exclusively representing them as electric. This decree is printed in extenso in Pulvermacher's Pamphlet of recent Testimonials and Medical Reports of cures, containing likewise numerous extracts from many standard and scientific works, viz Dr Pereira's "Materia Medica," Dr Turner's "Practice of Medicine," Dr Handfield Jones On Nervous and Functional Disoders, etc." This pamphlet may be had at the office of this Paper, or of J L Pulvermacher's Galvanic Establishment, 200 Regent St, London.
